BOARD OF GOVERNORS OF FAST

The sponsoring body of the University – the Foundation for Advancement of Science and Technology (FAST) was established in 1980. It is registered with the Government of Pakistan as a charitable institution. In 1985, it selected higher education as a vehicle to pursue its objective of producing scientists and technologists of the highest caliber. FAST pioneered the development of IT industry in Pakistan by offering the country's first undergraduate program in Computer Science. Today, this University, sponsored by FAST, stands recognized as the leader and trend-setter in this field in Pakistan and abroad.

A Board of Governors, elected in accordance with its Charter, manages the affairs of the Foundation. The members of the Board are eminent personalities in their respective fields and are associated with the Foundation in an honorary capacity.

Rector's Message

Dear Applicants,

It is my pleasure to welcome you as prospective members of the FAST-NUCES community. As you prepare to take the next step toward shaping your future, you stand at a unique intersection of opportunity and transformation which has led to an era defined by rapid innovation, global connectivity, and evolving career landscapes. At FAST-NUCES, we are committed to helping you navigate these changes with confidence, purpose, and clarity.

With established campuses in Lahore, Karachi, Islamabad, Peshawar, and Chiniot-Faisalabad, FAST-NUCES continues to expand its academic footprint to provide greater access to quality education. I am pleased to share that the Multan campus successfully commenced its operations in August 2025. This expansion aligns with our mission to provide the youth of South Punjab access to high quality education with a focus on innovative, research based learning.

This year marks another significant acadesmic milestone with the introduction of new MS degree programs in Applied Artificial Intelligence in Health Sciences, Computational Intelligence, Computer Engineering, Global Virtual Management, Industrial and Technology Management, and Intelligent Embedded Systems at the Islamabad, Karachi, and Lahore campuses, expanding our academic offerings and reinforcing our commitment to interdisciplinary excellence.

As pioneers of Computer Science education in Pakistan since 1985, we laid the foundation for a tradition of excellence that continues to this day. Since then, we have shaped countless leaders who now excel across the globe in technology, business, engineering, and entrepreneurship. Our graduates contribute to leading companies and launch ventures that drive innovation and economic growth.

We offer a diverse range of academic programs designed for a fast evolving world, including:

- **Traditional and specialized programs** in Computer Science, Software Engineering, Electrical and Computer Engineering, Civil Engineering, Business Administration, and Accounting & Finance
- **Future-focused disciplines** such as Artificial Intelligence, Data Science, Cyber Security, Fintech, and Business Analytics
- **Niche specializations** like Entrepreneurship and Game Development that equip students with industry relevant, innovative skills.

As part of our vision for global engagement, we continue to expand our international outreach through dedicated admissions initiatives aimed at attracting students from across the world. We believe that diversity, inclusion, and shared ambition enrich the learning experience and prepare students for success in a connected global society.

At FAST-NUCES, education is not just about getting a degree, it's a launchpad for critical thinking, adaptability, and leadership. We are committed to fostering not just technical skills, but also the mindset needed to navigate a fast changing world. Here, you'll be challenged to think independently, grow with purpose, and engage meaningfully with the world around you.

We look forward to welcoming you to FAST-NUCES and to supporting you on a journey defined by purpose, passion, and progress.

Dr. Aftab Ahmad

RECTOR

Founded as a Federally Chartered University in July 2000, the National University of Computer and Emerging Sciences is a premiere University of Pakistan, renowned for quality and impact of its students in the development of local software and other industries. The university has five modern campuses at Karachi, Lahore, Islamabad, Peshawar and Chiniot-Faisalabad. These campuses provide world class educational environment and recreational facilities to about 13,000 students, around one-quarter are female.

Research wings of the university are well recognized, nationally and internationally. They are embarked upon cutting edge research having direct impact on the social, economic and technological needs of Pakistan. Our vision is to become a globally recognized research university of Pakistan within the next decade.
